

Donor ventilation form

Dear Colleagues,

Please help the work of our Lung Transplantation Team by providing the following data collected before the sternotomy.

Tidal volume and pressure data are the most important, the others are optional.

Thank you very much for your help!

HN BTS Organ Coordination Office and HBSTP - Semmelweis University Department of Thoracic Surgery

Tidal volume (ml)	
PEEP (H ₂ Ocm)	
P_{peak} (H ₂ Ocm)	
P_{average.} (H ₂ Ocm)	
C_{pat.} (H ₂ Ocm)	
FiO₂ (%)
